## Windows and Casement Doors

Q- WINDOWS are made form high grade aluminum.  
All main hardware parts are imported from Germany.

With a frame dimension of 52 mm and profile thickness up to 2 mm they are very torsion stable.

Based on the integrated thermal and sound reduction element the windows and doors deliver highest thermal insulation performance.

The whole window system provides best security, water tidiness and highest sound reduction values.

Aluminum brackets for stabile corner joints

Glazing is covered by EDPM gaskets

Stainless Steel 304 screws for long life fastening

GERMAN Hardware provides smooth opening

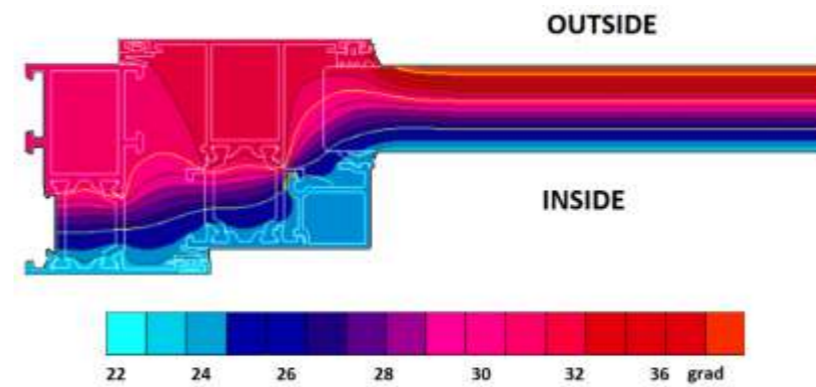

Thermal break strip

Heavy duty friction hinges

# Energy

In Q- Windows we spend greatest efforts to create a comfortable and safe living environment.

This picture shows the temperature variation in our thermal break profile. Outside **HOT**, inside **COLD**!

Q- Windows comply with modern building standards such as the "American LEED Standard" and the "Malaysian Green Building Index".

*This help you realize great money savings.*

Our German styled windows and doors are designed and manufactured for long term use. Base on outstanding features Q- Windows is able to provide a Lifetime Operational Warranty.

# System Performance

## Sound reduction

Noise is a common problem for everybody who lives in the city. Noise influences our daily lives and has a real impact on our health. It has long been known that excessive or constant noise can cause heart disease, high blood pressure, sleep disturbance stress, weakening of our immune system.

## Water tight

Our standard double lamination glazing already reduce the noise by factor 10. That's a significant improvement over 6 mm single glass and enough to keep the unhealthy noise outside of your apartment, hotel or private house.

For developers this is a great selling point as many customers are looking for a quiet, comfortable home. With our Q-Windows system you can differentiate yourself from the market and add value to your property.

## Wind noise proofed
